

Project Design Phase

Solution Architecture

Date:	3rd July 2025
Team ID:	LTVIP2025TMID48488
Project Name:	Housing Visualization Analysis Trend
Maximum Marks:	4 Marks

Solution Architecture:

Solution architecture is a complex process — with many sub-processes — that bridges the gap between business problems and technology solutions. Its goals are to:

- Find the best tech solution to solve existing business problems.
- Describe the structure, characteristics, behavior, and other aspects of the software to project stakeholders.
- Define features, development phases, and solution requirements.
- Provide specifications according to which the solution is defined, managed, and delivered.
